

MADE IN BREDARYD - SWEDEN

More and more people are choosing local alternatives of sustainably produced products, with new thinking, innovation and flexibility in focus. All of this is central to our offering and we believe that we offer “the world’s best advertising spaces”.

With us, you shop sustainably, and most of our products are manufactured in Bredaryd, Småland. Local production produces a low CO2 footprint while products and processes meet the highest demands from end customers and other stakeholders. We do everything from innovation, design, tool manufacturing, injection moulding, laminating, sublimation, laser engraving, screen printing, digital and pad printing, all in order to provide the most complete and controlled production and process possible.

Our materials are selected with care where use, life expectancy and possible recycling are taken into account, and the total impact that our product has and can have during its life cycle is evaluated. Our materials include recycled used materials from refrigerators, organic-based polymers from sugar cane, standard polymers suitable for circular recycling and wood fibre products with a negative CO2 footprint in the product.

Many of our products replace disposable products and often have more than one feature incorporated into their design. For example, the JavaGo thermal mug which during its lifetime replaces disposable mugs in quantity and the ice scraper which also contains an innovative parking dial. Both of these are, of course, also available in recycled and organic materials as alternatives.

If you choose Plastprint – you choose a Swedish, sustainable and innovative partner that is the only complete provider of cost-effective and sustainable advertising spaces, where most of the products are produced, printed and handled in Sweden.

Join us on our sustainability journey!

KOCKUMS®
JERNVERK · SWEDEN

Enamelled steel mug

The retro-like and stylish mug from Kockums can be used for hot and cold beverages or serving. Enjoy a hot cup of tea at the kitchen table, morning coffee on the balcony or wherever you want something nice to drink from. A real classic! Kockums enamelled mug has a double layer of high-quality enamel that effectively resists dirt and stains and is easy to clean. The products are manufactured with care and precision. Kockums take the greatest possible consideration for people and the environment, so each mug is made from natural raw materials. Each product is completely unique as enamelling is a craft that can cause small changes in colour and irregularities. The mug is dishwasher safe, but to retain the lustre of the enamel we recommend washing by hand. Mugs with advertising print do not tolerate ovens or stoves. Also available with engraving on the bottom of the mug.

Dimensions: 37 cl. Height 80 mm. **Maximum printing surface:** Ø 45 mm.
